

# 100 Autographed Ali Single Gloves for Private Sale

These gloves are for private sale. We are seeking a buyer for all 100 gloves, however we will entertain offers on purchases of (25) gloves or more. We are not taking bids online. Please contact us for pricing and with any additional questions you may have.

Muhammad's signature has seen a meteoric climb in demand in the twenty-two years since the signing of these gloves and with new generations of fans being exposed to his greatness this will surely be the case going forward. This offered grouping is the largest and most superior to that of any we have seen offered to the public and due to Mr. Ali's declining health, one that will sadly never be replicated. Each Everlast glove is signed in silver paint pen with near flawless results and feature some of the boldest Ali signatures one could hope to encounter in their collecting endeavors.

This is a remarkable and truly rare opportunity to obtain such a highly prized collectible for either resale or investment purposes. Each glove will also be accompanied by a full James Spence Authentication Letter of Authenticity which only adds to further the rock solid provenance which already accompanied these gloves. JSA dates these gloves from the 1987 era. The gloves are being offered by noted collector and long-time trading card dealer [Steve Myland](#).
